

#### Add product from vendor to store

1. Login to smart fund as admin
2. Go to products – all products
3. Go to product in list and hover over
4. Select quick edit
5. Scroll down until you see multisite – publish to
6. Select the stores to add the product to along with check marks below
7. Click on update

You will need the permalink to do the next step for the sample vendor product gmail is

<http://sfundp.org/product/sample-vendor-product-gmail/>

To give the money to the store (31%) you need to add the affiliate's number to the above link

<http://sfundp.org/product/sample-vendor-product-gmail/?affiliates=2/>

For this sample I will be under the admin but the store owner can do this.

1. Log into the site.
2. Go to product all products
3. Highlight the product name a select edit
4. Go to the product data and change to external/affiliate product
5. Copy the link from above to product url
6. Update product
